

Beep Science AS is a leading provider of mobile Digital Rights Management (DRM) software solutions, enabling exciting new digital content services around the world. Founded in 2000, the company has established itself as internationally recognised specialist within the field of Mobile DRM, and has world-class brands as customers. Beep Science develops and provides client & server DRM software based on open industry standards. Beep Science has its head offices in Oslo, Norway, and has a Research & Development site in Szeged, Hungary.

Our field of business is growing rapidly and we are looking for focused professionals to grow our winning team.

Microsoft Windows Software Engineer

This is a challenging position for an experienced software engineer. The role is part of our fast-growing core R&D team developing a leading edge standards-based DRM solution for PCs and mobile phones. You will be expected to be the team's expert in implementing DRM on Windows desktop and mobile platforms. In this role you will work with our core DRM Agent team to apply the DRM technology to Windows desktop and devices. This will involve working with Microsoft and Windows Mobile OEMs (device manufacturers) to integrate DRM technology into forthcoming handsets.

Education

University degree in Computer Science, Computer/Software Engineering, Mathematics or equivalent.

Experience

Minimum of 2 years experience in C/C++/C# software development; including recent experience with Windows APIs. Candidates with more experience are encouraged to apply

Interpersonal Skills

- Excellent written and verbal communication skills in English
- Self-motivated and able to work independently
- Ability to build and maintain technical relationships with customers
- Willingness to travel

Preferred Skills

You should be experienced in at least some of the following areas:

- Visual Studio development
- Microsoft Windows APIs
- Windows Mobile development
- Windows Registry

- Microsoft Direct Show Framework
- .NET Framework
- Windows Mobile Development
- Content Protection Technologies (OMA DRM, WMDRM, ISMACryp, SimulCrypt etc.)
- Mobile Broadcast (DVB-H, T-DMB, OMA BCAST)

Job Location

Your place of work will be Oslo (Norway). International candidates are encouraged to apply.

How to Apply

For immediate consideration, please send your application and resume in English to jobs@beepscience.com. Your application should include your CV and a cover letter highlighting your experience relevant to this position.
